Panel executive.

Panel è una famiglia di tavoli e scrivanie dallo stile affidabile e solido, caratterizzato dai fianchi pannellati, dove il distanziale che separa il piano è un dettaglio che dà respiro al design. Disponibili in spessore 25 e 30 mm e in due profondità da 900 e 1000 mm, i piani si possono scegliere in varie lunghezze e in oltre 40 finiture diverse, con la possibilità di combinare i colori creando composizioni classiche o inedite.

Panel is a series of tables and desks with a reliable and solid style, characterized by paneled sides, where the spacer that separates the top is a detail that gives breath to the design. Available in thicknesses of 25 and 30 mm and in two depths of 900 and 1000 mm, the tops can be chosen in various lengths and in over 40 different finishes, with the possibility of combining colours to create classic or original compositions.

Accogliente e personale

Welcoming and personal

La scrivania Panel Executive è prodotta con piano lineare o sagomato e può essere completata dalla cassettiera portante, anche con la praticità dei vani a giorno dal lato visitatore. La famiglia prevede l'abbinamento con mobili di servizio e la possibilità di aggiungere allunghi, sia retti che sagomati, che aiutano a comporre in modo personale lo spazio della scrivania.

The Panel Executive desk is produced with a linear or shaped top and can be completed by a structural chest of drawers, also with the practicality of open compartments on the visitor side. The fseries includes a combination with service furniture and the possibility of adding extensions, both straight and shaped, which help to compose the desk space in a personal way.

PANEL TAVOLI RIUNIONE - PANEL MEETING TABLES

Accordi con solide basi

Agreements with solid foundations

La linea pulita e forte dei tavoli riunione Panel, con piano disponibile in versione retta, sagomata e semi-sagomata, è perfetta per abitare sia gli spazi più moderni che le ambientazioni classiche, adattandosi a tutti i contesti. anche grazie alle lunghezze diverse e ai pratici allunghi. Le tante finiture, sia effetto legno che con colori pieni, sapranno creare stili sempre nuovi.

The clean and strong style of the Panel meeting tables, with top available in straight, shaped and semi-shaped versions, is perfect for living in both the most modern spaces and classic settings, adapting to all contexts, also thanks to the different lengths and practical extensions. The many finishes, both wood effect and with solid colours will be able to create ever new styles.

Panel operative.

Panel è anche una famiglia di scrivanie operative che assomigliano ad un ottimo team di lavoro: solido, sempre pronto a collaborare, riservato e organizzatissimo. Basta pensare ai pratici screen, anche fonoassorbenti, che garantiscono privacy e sono allo stesso tempo anche elementi di decorazione. Oppure alla possibilità di completare la scrivania con pratiche cassettiere e mobili complanari, anche giocando con finiture colorate a contrasto.

Panel is also a series of operative desks that resemble an excellent work team: solid, always ready to collaborate, reserved and very organized. Just think of the practical screens, even sound-absorbent, which guarantee privacy and at the same time are also decorative elements. Or the possibility of completing the desk with practical drawer units and coplanar furniture, also playing with contrasting coloured finishes.

PANEL SCRIVANIE OPERATIVE - PANEL OPERATIVE DESKS

La vostra combinazione perfetta

Your perfect combination

Pensate ad una combinazione ideale per il vostro ufficio: con Panel potete realizzarla. Mobili complanari alti o bassi, cassettiere, vani separatori e passanti, allunghi con gambone quadrato: tutto è al servizio di un'operatività efficiente, che si adatta a voi e al vostro spazio, con il vantaggio di poter scegliere insieme a noi misure e finiture.

Think of an ideal combination for your office: you can create it with Panel. High or low coplanar furniture, drawer units, separating and passing compartments, return desks with square legs: all at service for efficient operation, which adapts to you and your space with the advantage of being able to choose sizes and finishes with us.

PANEL OPERATIVE WORKSTATION

Un'isola di razionalità

An island of rationality

Le workstation della famiglia Panel sono progettate per avvolgervi nell'organizzazione: sia che scegliate la versione con fianco pannellato che quella con gamba o cassettiera autoportanti, avrete sempre la sensazione di un'operatività confortevole e ben studiata, con l'aiuto dello screen frontale, anche fonoassorbente, che aumenta concentrazione e privacy.

The Panel series workstations are designed to envelop you in organization: whether you choose the version with a paneled side or the one with a structural leg or drawer unit, you will always have the feeling of comfortable and well-studied operation, with the help of the front screen, also sound absorbing, which increases concentration and privacy.

Riservato a tutti

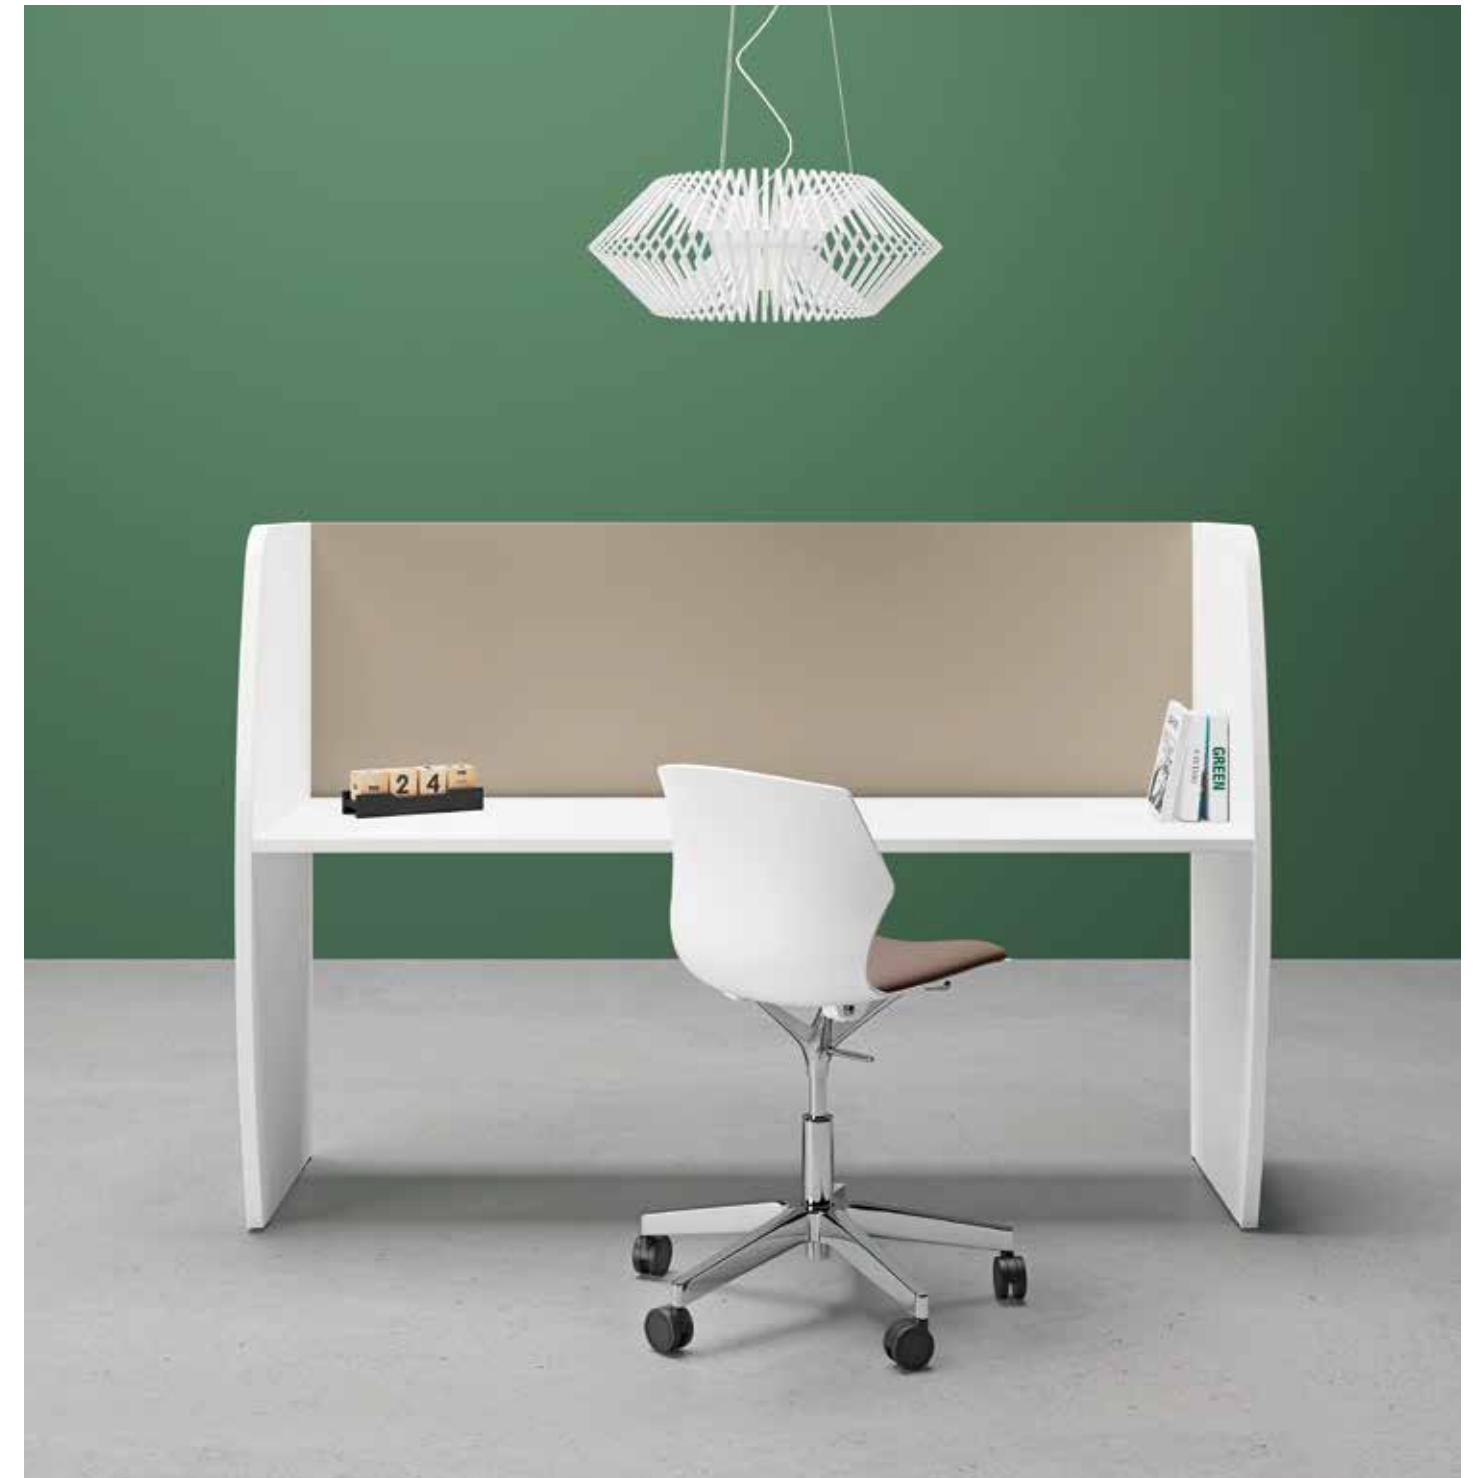

Reserved for everyone

Abbiamo completato la famiglia Panel con dei modelli dedicati a chi nel lavoro ha bisogno di assoluta riservatezza, con postazioni dotate di pareti laterali sagomate e pannelli frontali, anche in materiale fonoassorbente. Nelle postazioni multiple, i pannelli centrali sono dotati di foro e tappo passacavi per l'elettrificazione.

We completed the Panel series with models dedicated to those who need absolute privacy at work, with workstations equipped with shaped side walls and front panels, also in sound-absorbing material. In multiple workstations, the central panels are equipped with a hole and cable duct cap for electrification.

DESCRIZIONI TECNICHE

Scrivanie e workstation

Scrivanie piani e fianchi in melaminico con distanziali realizzati in conglomerato ligneo, classe E1 di rilascio formaldeide, nello spessore mm 25-30 e rivestito con carta melaminica ad alta resistenza. Bordi perimetrali in ABS dello stesso colore del piano, spessore mm 2 con spigoli arrotondati secondo le norme antinfortunistiche. Traversa fra i fianchi in conglomerato ligneo, classe E1 di rilascio formaldeide, spessore mm 18 e rivestito con carta melaminica ad alta resistenza. Bordi perimetrali in ABS dello stesso colore del piano, spessore mm 0.4

I fianchi sono collegati ai piani tramite giunzioni metalliche e sono dotati di piedini livellatori in ABS.

Cassettiera portante per scrivanie, appendici e workstation

Cassettiera portante Costituita da base, cappello, fianchi e retro realizzata in conglomerato ligneo, classe E1 di rilascio formaldeide, spessore mm 18 e rivestito con carta melaminica ad alta resistenza. Bordi perimetrali in ABS dello stesso colore spessore mm 0.4. Frontali in conglomerato ligneo, classe E1 di rilascio formaldeide, spessore mm 18 e rivestito con carta melaminica ad alta resistenza. Bordi perimetrali in ABS dello stesso colore spessore mm 1. Interno cassetto realizzato in conglomerato ligneo ricoperto in PVC grigio e fondo in MDF sp. 3 mm. Sistema di scorrimento su guide metalliche, trattate anticorrosione, a rullo con cuscinetti in nylon, e arresto di fine corsa. I cassetti possono essere dotati di chiusura ammortizzata (opzionale). La cassetiera è dotata di 4 piedini livellatori in PVC regolabili dall'interno del mobile tramite perno filettato in acciaio, ed è fornita di serratura con chiave pieghevole in duplice copia e chiusura simultanea dei cassetti. Maniglie in zamac colore grigio di serie. (Disponibili ulteriori maniglie opzionali). Gamboni portanti per raccordi, appendici e penisole in tubolare sezione 50x50 verniciati a polveri epossidiche colore grigio, bianco o antracite e dotati di piedino livellatore. Schermi frontali di diverse tipologie sono applicabili, tramite staffe in lamiera piegata e verniciata, al sistema desk: In metacrilato dello spessore mm 4. In melaminico dello spessore mm 18 bordato in ABS mm 1 da tutti i lati. In materiale fonoassorbente spessore mm 18 rivestito in tessuto Trevira CS.

Mobili complanari

Realizzati in conglomerato ligneo, classe E1 di rilascio formaldeide, spessore mm 18 e rivestito con carta melaminica ad alta resistenza. Bordi perimetrali in ABS dello stesso colore spessore mm 0,4. Giunzioni in metallo e piedini livellatori in PVC regolabili dall'interno del mobile tramite perno filettato in acciaio. Retro in conglomerato ligneo spessore mm 18. Ante in conglomerato ligneo, classe E1 di rilascio formaldeide, spessore mm 18 e rivestito con carta melaminica ad alta resistenza dotate di serratura con chiave pieghevole in duplice copia. Bordi perimetrali in ABS dello stesso colore spessore mm

TECHNICAL DESCRIPTIONS

Desks and workstations

Desks with melamine top and sides with spacer made of Class E1 formaldehde gas release conglomerated chipboard wood with 25-30 mm thickness and covered with high resistance melamine paper. ABS 2 mm thick perimeter edging in the same colour as the top, the corners are rounded and comply to accident prevention standards. The crossbar between the sides is made of class E1 formaldehde gas release conglomerated chipboard wood with 18 mm thickness and covered with high resistance melamine paper. ABS 0,4 mm thick perimeter edging in the same colour as the top. The sides are connected to the top by means of metal junctions and are equipped with ABS levelling feet.

Structural drawer unit for desks, return desks and workstations

Structural drawer unit composed of a base, top, sides and back made of class E1 formaldehde gas release conglomerated chipboard wood with 18 mm thickness and covered with high resistance melamine paper. ABS 0,4 mm thick perimeter edging in the same colour. The fronts are made of E1 formaldehde gas release 18 mm thick conglomerated chipboard wood covered with high resistance melamine paper. 1 mm ABS edging on all sides in the same colour. The inside of the melamine drawers are coated with an aluminium grey PVC finish with MDF 3 mm thickness bottom. Guided system anti corrosion treated metal runners with roller nylon bearings, and end-of-stroke stop. The drawers can be equipped with a cushioned closure (optional). The drawer unit is equipped with 4 adjustable feet and simultaneous drawer locking by means of a foldable key in duplicate copies. The handles are in grey zamac by series. (Additional optional handles available). Load-bearing legs for junctions, return desks and peninsulas made of grey, white or anthracite epoxy powder coated tubular sectioned steel 50x50 equipped with leveling feet. Frontal screens of different types can be applied by means of folded and painted sheet metal brackets to the desk system: In 4 mm thickness methacrylate. In melamine 18 mm thickness with 1 mm ABS edging on all sides. In 18 mm thickness sound-absorbing material upholstered with Trevira CS fabric.

Coplanar furniture

Made of class E1 formaldehde gas release conglomerated chipboard wood with 18 mm thickness and covered with high resistance melamine paper. ABS 0,4 mm thick perimeter edging in the same colour. Metal junctions and adjustable PVC levelling feet from inside the cabinet via threaded steel pin. The back is made of conglomerated chipboard wood with 18 mm thickness. The doors are made of class E1 formaldehde gas release conglomerated chipboard wood with 18 mm thickness and covered with high resistance melamine paper.

1, cerniere in metallo fissate ai fianchi con basetta a triplice regolazione, opzionale cerniera ammortizzata. Ripiano interno regolabile spessore mm 25, bordi perimetrali in ABS spessore mm 0,4 nella stessa finitura. Top in melaminico sp. 25-30 mm, in funzione al piano, bordati in ABS sp. mm 2. Maniglie in plastica colore grigio di serie. (Disponibili ulteriori maniglie opzionali).

Cassettiere complanari

Costituita da base, cappello, fianchi e retro realizzata in conglomerato ligneo, classe E1 di rilascio formaldeide, spessore mm 18 e rivestito con carta melaminica ad alta resistenza. Bordi perimetrali in ABS dello stesso colore spessore mm 0.4. Frontali in conglomerato ligneo, classe E1 di rilascio formaldeide, spessore mm 18 e rivestito con carta melaminica ad alta resistenza. Bordi perimetrali in ABS dello stesso colore spessore mm 1. Interno cassetto realizzato in conglomerato ligneo ricoperto in PVC grigio e fondo in MDF sp. 3mm. Sistema di scorrimento su guide metalliche, trattate anticorrosione, a rullo con cuscinetti in nylon, e arresto di fine corsa. I cassetti possono essere dotati di chiusura ammortizzata (opzionale). La cassetiera è dotata di 4 piedini regolabili ed è fornita di serratura con chiave pieghevole in duplice copia e chiusura simultanea dei cassetti. Top in melaminico sp. 25-30 mm, in funzione al piano, bordati in ABS sp. mm 2. Maniglie in plastica colore grigio di serie. (Disponibili ulteriori maniglie opzionali).

Tavoli riunione

Tavoli riunione piani e fianchi in melaminico (Pannellata) realizzati in conglomerato ligneo, classe E1 di rilascio formaldeide, spessore mm 25-30 e rivestito con carta melaminica ad alta resistenza. Bordi perimetrali in ABS dello stesso colore del piano, spessore mm 2 con spigoli arrotondati secondo le norme antinfortunistiche. Traversa fra i fianchi in conglomerato ligneo, classe E1 di rilascio formaldeide, spessore mm 18 e rivestito con carta melaminica ad alta resistenza. Bordi perimetrali in ABS dello stesso colore, spessore mm 0.4. I fianchi sono collegati ai piani tramite giunzioni metalliche e sono dotati di piedini livellatori in ABS. Tavoli riunione struttura metallica Piani in melaminico realizzati in conglomerato ligneo, classe E1 di rilascio formaldeide, spessore mm 38 e rivestito con carta melaminica ad alta resistenza. Bordi perimetrali in ABS dello stesso colore del piano, spessore mm 2 con spigoli arrotondati secondo le norme antinfortunistiche. Gamboni portanti per tavoli riunione realizzati in lamiera d'acciaio stampata e verniciati a polveri epossidiche colore grigio, bianco o antracite. Gamboni portanti per raccordi o penisole in tubolare sezione 80x80 verniciati a polveri epossidiche colore grigio, bianco o antracite

ABS 1 mm thick perimeter edging in the same colour, metal hinges fixed to the sides with triple adjustment base. Melamine top with 25-30 mm thickness with ABS 2 mm edging. The handles are in grey zamac by series. (Additional optional handles available).

Coplanar drawer unit

Composed of a base, top, sides and back made of class E1 formaldehde gas release conglomerated chipboard wood with 18 mm thickness and covered with high resistance melamine paper. ABS 0,4 mm thick perimeter edging in the same colour. The fronts are made of E1 formaldehde gas release 18 mm thick conglomerated chipboard wood covered with high resistance melamine paper. 1 mm ABS edging on all sides in the same colour. The drawer unit is equipped with four adjustable feet and simultaneous drawer locking by means of a foldable key in duplicate copies. The handles are in grey zamac by series. (Additional optional handles available).

Meeting tables

Desks with melamine top and sides (paneled) made of Class E1 formaldehde gas release conglomerated chipboard wood with 25-30 mm thickness and covered with high resistance melamine paper. ABS 2 mm thick perimeter edging in the same colour as the top, the corners are rounded and comply to accident prevention standards. The crossbar between the sides is made of class E1 formaldehde gas release conglomerated chipboard wood with 18 mm thickness and covered with high resistance melamine paper. ABS 0,4 mm thick perimeter edging in the same colour. The sides are connected to the top by means of metal junctions and are equipped with ABS levelling feet. Meeting tables with metallic structure Melamine tops made of Class E1 formaldehde gas release conglomerated chipboard wood with 38 mm thickness and covered with high resistance melamine paper. ABS 2 mm thick perimeter edging in the same colour as the top, the corners are rounded and comply to accident prevention standards. Load-bearing legs for meeting tables made of grey, white or anthracite epoxy powder coated stamped sheet steel. Load-bearing legs for junctions or peninsulas made of grey, white or anthracite epoxy powder coated tubular sectioned steel 80x80.

Panel system

DESCRIZIONI TECNICHE

Benches

Piani e fianchi con distanziali in melaminico realizzati in conglomerato ligneo, classe E1 di rilascio formaldeide, spessore mm 25-30 e rivestito con carta melaminica ad alta resistenza. Bordi perimetrali in ABS dello stesso colore del piano, spessore mm 2 con spigoli arrotondati secondo le norme antinfortunistiche. Traversa fra i fianchi in conglomerato ligneo, classe E1 di rilascio formaldeide, spessore mm 18 e rivestito con carta melaminica ad alta resistenza.

Bordi perimetrali in ABS dello stesso colore del piano, spessore mm 0.4. I fianchi sono collegati ai piani tramite giunzioni metalliche e sono dotati di piedini livellatori in ABS.

Gamboni portanti per penisole in tubolare sezione 50x50 verniciati a polveri epossidiche colore grigio, bianco o antracite e dotati di piedino livellatore.

Schermi frontali di diverse tipologie sono applicabili, tramite staffe in lamiera piegata e verniciata, al sistema benches: In metacrilato dello spessore mm 4.

In melaminico dello spessore mm 18 bordato in ABS mm 1 da tutti i lati. In materiale fonoassorbente spessore mm 18 rivestito in tessuto Trevira CS.

Call

Piani e fianchi in melaminico realizzati in conglomerato ligneo, classe E1 di rilascio formaldeide, spessore mm 25-30 e rivestito con carta melaminica ad alta resistenza. Bordi perimetrali in ABS dello stesso colore del piano, spessore mm 2 con spigoli arrotondati secondo le norme antinfortunistiche.

I fianchi sono collegati ai piani tramite giunzioni metalliche e sono dotati di piedini livellatori in ABS. Fianchi intermedi dotati di foro con tappo passacavi per permettere il passaggio cavi tra le postazioni.

Schermi frontali di diverse tipologie sono applicabili, tramite staffe in lamiera piegata e verniciata, al sistema call:

-In melaminico dello spessore mm 18 bordato in ABS mm 1 da tutti i lati.

-In materiale fonoassorbente spessore mm 18 rivestito in tessuto Trevira CS.

Su tutti gli arredi, ove possibile, possono essere applicati fori passacavi, flap ed elementi di elettrificazione presenti nella sezione “Accessori elettrificazione” della famiglia.

TECHNICAL DESCRIPTIONS

Benches

Tops and sides with spacer made of Class E1 formaldehde gas release conglomerated chipboard wood with 25-30 mm thickness and covered with high resistance melamine paper. ABS 2 mm thick perimeter edging in the same colour as the top, the corners are rounded and comply to accident prevention standards. The crossbar is between the sides made of Class E1 formaldehde gas release conglomerated chipboard wood with 18 mm thickness and covered with high resistance melamine paper. ABS 0,4 mm thick perimeter edging in the same colour as the top. The sides are connected to the top by means of metal junctions and are equipped with ABS levelling feet. Load-bearing legs for peninsulas made of grey, white or anthracite epoxy powder coated tubular sectioned steel 50x50 equipped with leveling foot. Frontal screens of different types can be applied by means of folded and painted sheet metal brackets to the benches system: In 4 mm thickness methacrylate. In melamine 18 mm thickness with 1 mm ABS edging on all sides. In 18 mm thickness sound-absorbing material upholstered with Trevira CS fabric.

Call

Melamine tops and sides made of Class E1 formaldehde gas release conglomerated chipboard wood with 25-30 mm thickness and covered with high resistance melamine paper. ABS 2 mm thick perimeter edging in the same colour as the top, the corners are rounded and comply to accident prevention standards. The sides are connected to the top by means of metal junctions and are equipped with ABS levelling feet. Intermediate sides equipped with a hole with cable gland cap to allow the passage of cables between the stations.

Frontal screens of different types can be applied by means of folded and painted sheet metal brackets to the call system:

-In melamine 18 mm thickness with ABS 1 mm edging on all sides.

-In 18 mm thickness sound-absorbing material upholstered with Trevira CS fabric. Cable duct holes, flaps ad all electrification elements may be applied (where possible) on all furnishings, see the “electrification accessories” section.
