Vertex executive.

Una collezione di tavoli moderni dedicati all'ufficio direzionale, dove l'ergonomia crea comfort e la personalizzazione delle finiture diventa espressione di stile. I piani sono infatti proposti in un'ampia gamma di declinazioni diverse di materiali e colori, per sintonizzarsi con l'arredamento e dare un tocco unico agli ambienti.

A collection of dedicated modern tables for managerial offices, where ergonomics create comfort and customized finishes become an expression of style. In fact, the tops are offered in a wide range of different declinations of materials and colours in tune with the decor to give environments a unique touch.

finish, white feet and handles.

Un sottile dettaglio di valore

A subtle detail of value

Un materiale sottile eppure forte, resistente nel tempo ed interamente riciclabile: la scrivania Executive in HPL ha un design snello e contemporaneo, disponibile in 3 tonalità, full colour e con gamba coordinata.

A thin yet strong, resistant material over time and entirely recyclable: the HPL Executive desk has a slim and contemporary design available in 3 shades, full colour with matching leg.

Piano in HPL finitura antracite con allungo. Struttura verniciata antracite.
HPL top in anthracite finish with return desk.
Anthracite structure.

Anthracite feet and handles.

La trasparenza è sostanza

Transparency is the essence

La scrivania executive con piano in vetro unisce prestazioni diverse: la robustezza del vetro temperato, il pregio di un materiale nobile e sostenibile, la ricercatezza di una resa sempre luminosa, declinata in tre diverse tonalità, trasparente, bianco e nero.

The executive glass top desk unites different performances: the strength of tempered glass, the value of noble and sustainable material, the refinement of an always bright yield, available in three different shades: transparent, black and white.

Piano in vetro finitura trasparente, struttura antracite.
Mobile servente con ante e cassetti finitura extra.

VERTEX RIUNIONE VETRO - GLASS VERTEX MEETING TABLES

Incontrarsi con eleganza

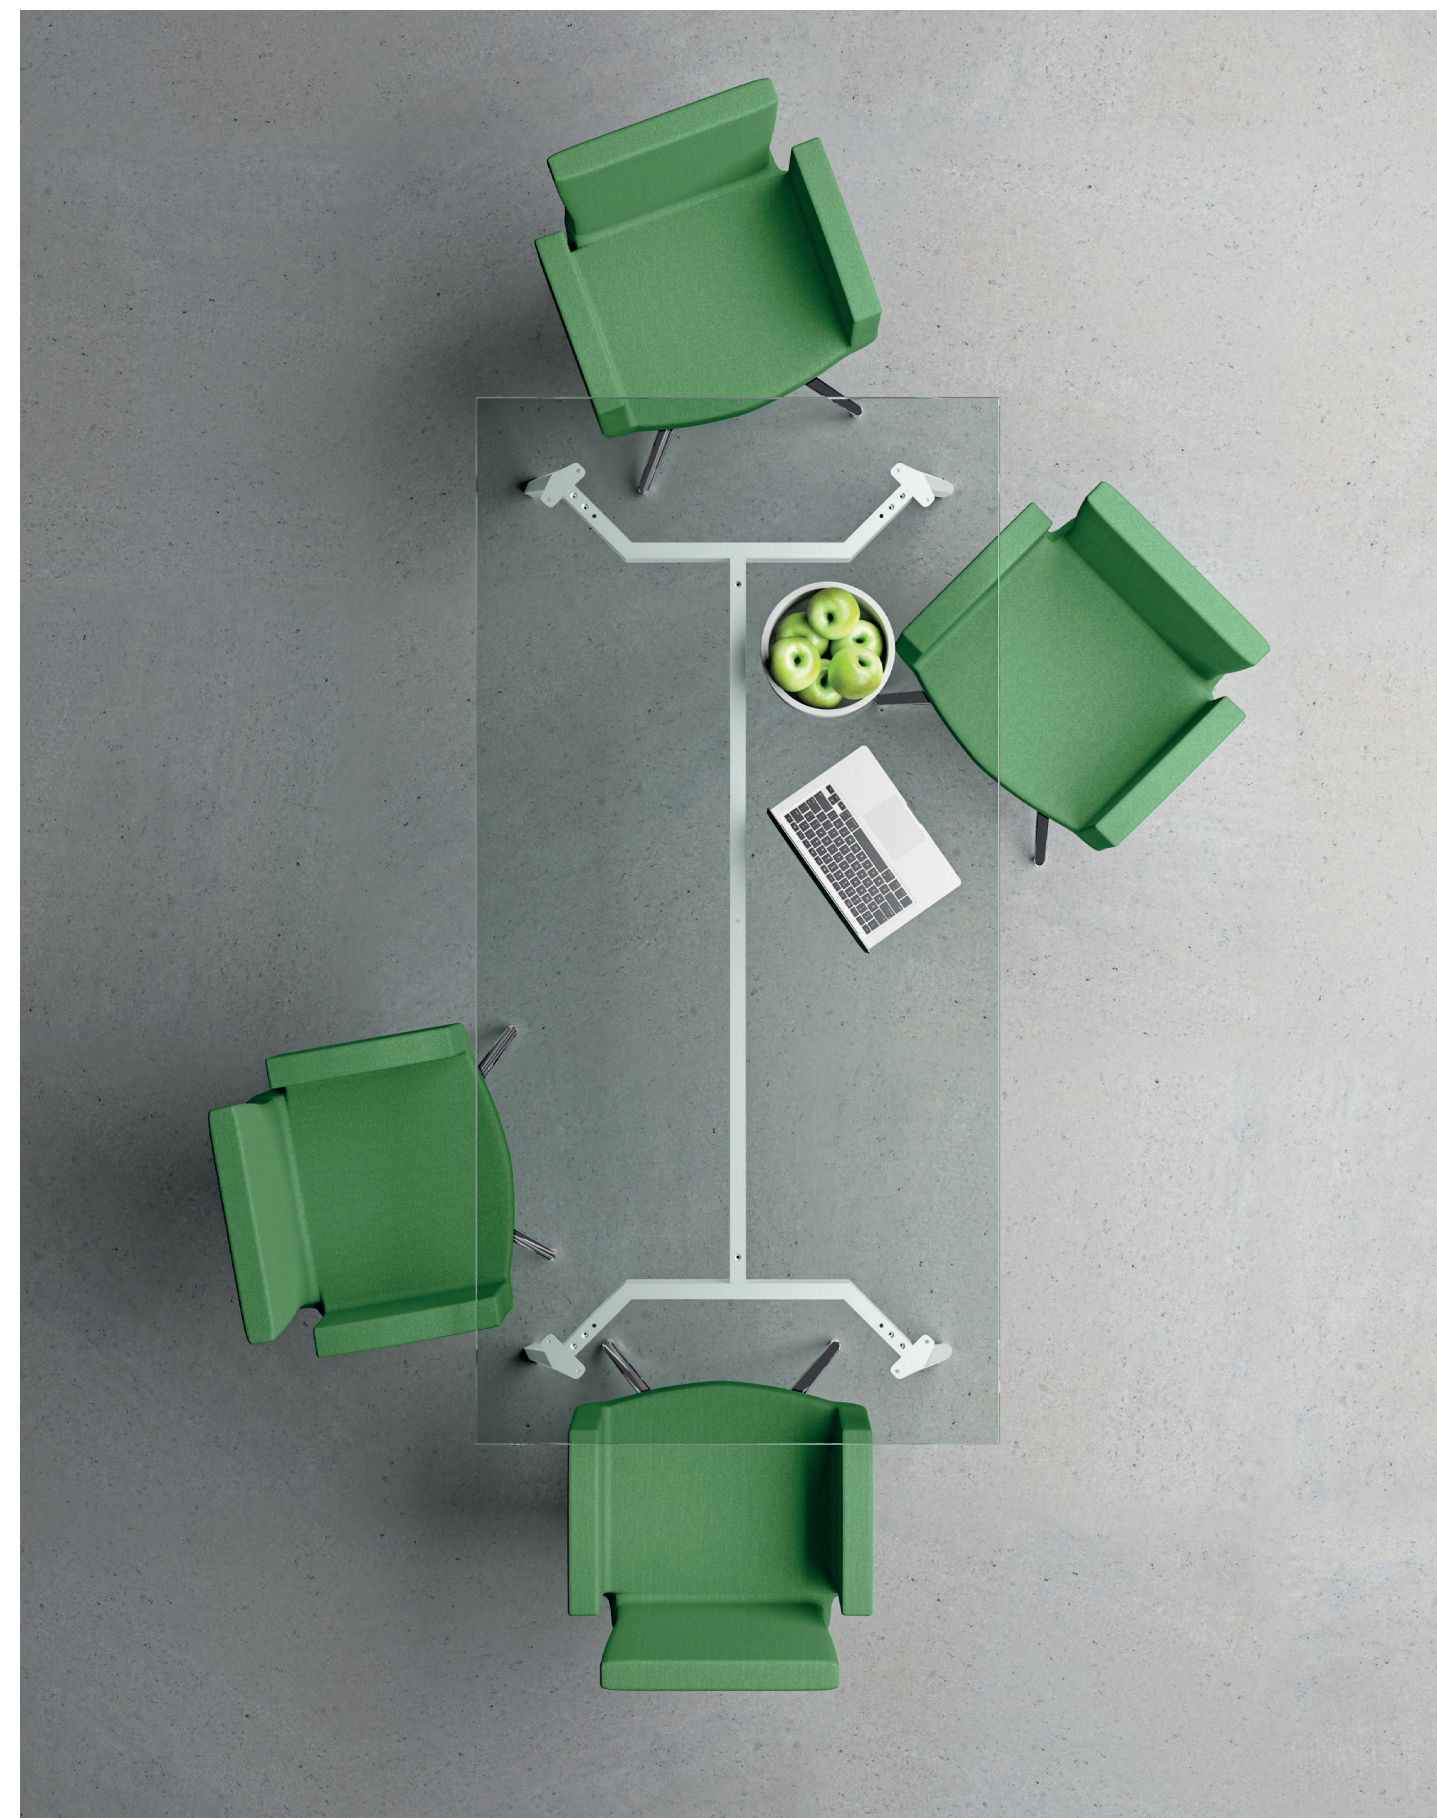

Meet with elegance

Il vetro in versione trasparente, o retro laccato bianco o nero crea subito un ambiente riunione raffinato, dove la luce si diffonde più facilmente e genera un senso di spazio. Anche questi tavoli sono dotati del comodo vano centrale portacavi, per mantenere un'estetica curata in ogni momento.

A glass transparent version with black or white lacquered backside immediately creates for a refined meeting environment, where light spreads more easily and generates a sense of space. These tables are also equipped with a convenient central cable compartment to maintain a refined aesthetic look at all times.

Vertex boiserie, armadi, consolle

Vertex boiserie, cabinets, console

La collezione Vertex è completata e arricchita da una serie di armadi, consolle e contenitori, anche componibili tra loro, con misure diverse, che risultano di grande praticità e arredano con stile e personalità. Dal mobile portadocumenti alla parete attrezzata, questi elementi sono realizzati in melaminico, con finiture esterne sia in melaminico che in hpl, con colori ed effetti a scelta.

The Vertex collection is completed and enriched by a series of different sized modular cabinets, consoles and containers, which are highly practical and furnish with style and personality. From the document cabinet to the equipped wall, these elements are made of melamine with external finishes both in melamine and HPL with colours and effects of your choice.

VERTEX ARMADI - VERTEX CABINETS

Organizzare e proteggere con il design

Organize and protect with design

I nostri armadi sono in versione alta e bassa, componibili tra loro per creare combinazioni ideali al vostro spazio. Le varianti sono tantissime e nascono dalla combinazione di melaminico e hpl, con ante disponibili in melaminico, hpl e vetro, per completare l'arredamento dell'ufficio in base al proprio stile. Piedini e maniglie sono disponibili in tre finiture.

Our wardrobes come in high and low versions, combinable with each other to create ideal combinations for your space. Many variations are born from the combination of melamine and hpl with doors available in melamine, hpl and glass for complete office furnishings based on own style. Feet and handles are available in three finishes.

Vertex operative.

Praticità, versatilità e design sono la cifra che distingue questa collezione, pensata per vivere intensamente gli spazi operativi, adattandosi con stile alle esigenze dell'utente. La grande varietà di misure e accessori permette di organizzare al meglio lo spazio operativo, dotandolo anche di pannelli fonoassorbenti e modesty. Le vasche di cablaggio sotto il piano e le gambe con fori per il passaggio dei cavi aiutano a mantenere le postazioni sempre pulite e ordinate.

Practicality, versatility and design are the key which distinguishes this collection, thought out to intensely experience operational spaces, adapting with style to the user's needs. The great variety of sizes and accessories allows you to better organize operational space, also equipping it with sound-absorbing and modesty panels. The under top cable trays and legs with holes for cable management help keep the workstations clean at all times and in order.

Lavorare con praticità crea efficienza

Working with ease creates efficiency

Le scrivanie operative Vertex sono progettate per favorire un'attività sempre pratica e confortevole. Grazie alle molteplici lunghezze, con due profondità, possono adattarsi a qualsiasi spazio, completate dal mobile complanare e dalla cassetteria portante. Tra gli optional, lo screen in melaminico o tessuto fonoassorbente e il pannello modesty.

Vertex task desks are designed to encourage an activity that is always practical and comfortable. Thanks to multiple lengths and two depths, they can be adapted to any space, completed by a coplanar cabinet and supporting chest of drawers. Options include a melamine or fabric sound absorbing screen and melamine modesty panel.

VERTEX BENCHES MELAMINICO - MELAMINE VERTEX BENCHES

Condividere è comodo

Sharing is comfortable

La collezione Vertex include benches disponibili in due profondità diverse e molteplici lunghezze, per organizzare zone ad operatività multipla. Una fascia centrale accessibile permette il passaggio dei cavi e la pulizia. Completano la collezione gli screen in melaminico e tessuto fonoassorbente, sia longitudinale che trasversale, che grazie al colore diventano piacevoli elementi di decorazione.

The Vertex collection includes benches available in two different depths and various lengths to organize multiple operative areas. An accessible central band allows for cable management and cleaning. The collection is completed by melamine and sound-absorbing fabric screens, both longitudinal and transversal, and thanks to choice of colour they become pleasant decorative elements.

DESCRIZIONI TECNICHE

Scrivanie - dattilo

Piani realizzati in:

- Conglomerato ligneo, classe E1 di rilascio formaldeide, nello spessore 18 e 25 mm e rivestito con carta melaminica ad alta resistenza. Bordo perimetrale in ABS sp. 2 mm con spigoli arrotondati raggio 2 mm. Colori specificati in tabella. Presenti inserti in metallo per attacco alla struttura.
- HPL spessore 10 mm con scontornatura perimetrale a 45° e spigoli arrotondati raggio 2 mm. Colori specificati in tabella. Presenti inserti in metallo per attacco alla struttura.

- Vetro temperato spessore 10 mm realizzato sia trasparente che retro-laccato nei colori specificati in tabella. Smussatura perimetrale.

Struttura realizzata in tubolare a sezione rettangolare 60x30 mm in lamiera d'acciaio spessore 2 mm verniciata a polveri epossidiche. Presenta due telai a "C" aperta in modo da consentire l'innesto delle gambe, con fissaggio a vite, con apertura di 45° rispetto al piano. I telai con le gambe sono collegati tramite una trave ad innesto con bloccaggio a vite. Lungo tutta la struttura sono presenti, sulla parte inferiore, asole che permettono il passaggio di cavi all'interno della stessa.

La gamba è di forma tubolare leggermente ovalizzata a sviluppo conico crescente in altezza ed è inclinata sull'asse Z di 12°. È realizzata in lamiera d'acciaio piegata in parti opportunamente saldate. Verniciatura a polveri epossidiche nei colori definiti in tabella. Presenta due aperture, una nella parte bassa e l'altra in alto, per permettere la salita dei cavi fino alla struttura. Piedino in ABS di regolazione.

Nella versione "Operative" possono essere inserite come optional:

- screen in pannello melaminico spessore 18 mm
- screen in pannello fonoassorbente spessore 18 mm
- modesty in pannello melaminico

I relativi colori dei pannelli in melaminico e dei rivestimenti fonoassorbenti sono come da tabelle.

Su tutti gli arredi, ove possibile, possono essere applicati fori passacavi, flap ed elementi di elettrificazione presenti nella sezione "accessori".

TECHNICAL DESCRIPTIONS

Operative - desks

Tops made of:

- Wooden conglomerate class E1 formaldehyde release in 18 e 25 mm thickness coated with high resistant melamine paper. Perimeter edging in 2 mm thick ABS with rounded corners with a 2 mm radius. Refer to our chart for specified colours. Fastening to the structure by means of metal inserts.
- HPL 10 mm thickness with perimeter contouring at 45° and rounded corners with a 2 mm radius. Refer to our chart for specified colours. Fastening to the structure by means of metal inserts.

- Ten mm thick tempered transparent glass or with lacquered backside in the specified colours illustrated in our chart. Perimeter beveling.

Rectangular sectioned tubular epoxy powder coated 2 mm thick sheet steel 60x30 mm structure. It has two open "C" frames which allow the legs to be inserted and fastened by means of screws with a 45° opening in respect to the top. The frames with legs are connected by means of a plug-in beam with screw locking. Slots are located along the entire lower part of the structure which allow for cabling.

The leg has a slightly oval tubular shape with a conical development increasing in height and is inclined on the Z axis by 12°. It is made of sheet steel folded into appropriately welded parts. Epoxy powder coated colours illustrated in our chart. It has two openings, one in the lower part and the other at the top allowing for the cables to reach the structure. ABS adjustable feet.

The following can be inserted as optionals in the "Operative" version:

- 18 mm thick melamine screen panel
- 18 mm thick acoustic screen panel
- Melamine modesty panel

Relative melamine panel colours and sound-absorbing fabrics are indicated in our charts.

The support brackets are made of 1 mm thick folded epoxy powder coated sheet steel.

Cable duct holes, flaps and all electrification elements may be applied (where possible) on all furnishings, see the "accessories".

Tavoli riunione

Piani realizzati in:

- Conglomerato ligneo, classe E1 di rilascio formaldeide, nello spessore 18 e 25 mm e rivestito con carta melaminica ad alta resistenza. Bordo perimetrale in ABS sp. 2 mm con spigoli arrotondati raggio 2 mm. Colori specificati in tabella. Presenti inserti in metallo per attacco alla struttura.
- HPL spessore 10 mm con scontornatura perimetrale a 45° e spigoli arrotondati raggio 2 mm. Colori specificati in tabella. Presenti inserti in metallo per attacco alla struttura.

Struttura realizzata in tubolare a sezione rettangolare 60x30 mm in lamiera d'acciaio spessore 2 mm verniciata a polveri epossidiche. Presenta due telai a "C" aperta in modo da consentire l'innesto delle gambe, con fissaggio a vite, con apertura di 45° rispetto al piano. I telai con le gambe sono collegati tramite una trave ad innesto con bloccaggio a vite. Lungo tutta la struttura sono presenti, sulla parte inferiore, asole che permettono il passaggio di cavi all'interno della stessa.

Gli elementi della struttura si differenziano, rispetto alle scrivanie, per la presenza di una doppia trave di collegamento tra i telai delle gambe. I tavoli riunioni composti possono essere ulteriormente allungati con l'aggiunta degli appositi piani. Tutti i piani composti, oltre alle travi della struttura, presentano una gamba scatolare in conglomerato ligneo spessore 18 mm rivestito in melaminico ad alta resistenza con vano ispezionabile per dare continuità al passaggio dei cavi.

Su tutti gli arredi, ove possibile, possono essere applicati fori passacavi, flap ed elementi di elettrificazione presenti nella sezione "accessori".

Benches

Piani realizzati in:

- Conglomerato ligneo, classe E1 di rilascio formaldeide, nello spessore 18 e 25 mm e rivestito con carta melaminica ad alta resistenza. Bordo perimetrale in ABS sp. 2 mm con spigoli arrotondati raggio 2 mm. Colori specificati in tabella. Presenti inserti in metallo per attacco alla struttura.
- Struttura realizzata in tubolare a sezione rettangolare 60x30 mm in lamiera d'acciaio spessore 2 mm verniciata a polveri epossidiche. Presenta due telai a "C" aperta in modo da consentire l'innesto delle gambe, con fissaggio a vite, con apertura di 45° rispetto al piano. I telai con le gambe sono collegati tramite una trave ad innesto con bloccaggio a vite. Lungo tutta la struttura sono presenti, sulla parte inferiore, asole che permettono il passaggio di cavi all'interno della stessa.

Gli elementi della struttura presentano una doppia trave di collegamento tra i telai delle gambe. I benches possono essere ulteriormente allungati con l'aggiunta degli appositi piani. Tutti i piani composti, oltre alle travi della struttura, presentano una gamba scatolare in conglomerato ligneo spessore 18 mm rivestito in melaminico ad alta resistenza con vano ispezionabile per dare continuità al passaggio dei cavi.

Il piano doppio di lavoro è caratterizzato dalla presenza centrale di una copertura amovibile per il passaggio cavi sia da feritoie coperte da spazzolina che da top access apribile a sportello tramite cerniere a scomparsa.

Su tutti i benches possono essere inserite come optional:

- screen in pannello melaminico spessore 18 mm frontali e laterali
- screen in pannello fonoassorbente spessore 18 mm frontali e laterali

Su tutti gli arredi, ove possibile, possono essere applicati fori passacavi, flap ed elementi di elettrificazione presenti nella sezione "accessori".

Meeting tables

Tops made of:

- Wooden conglomerate class E1 formaldehyde release in 18 e 25 mm thickness coated with high resistant melamine paper. Perimeter edging in 2 mm thick ABS with rounded corners with a 2 mm radius. Refer to our chart for specified colours. Fastening to the structure by means of metal inserts.
- HPL 10 mm thickness with perimeter contouring at 45° and rounded corners with a 2 mm radius. Refer to our chart for specified colours. Fastening to the structure by means of metal inserts.

Rectangular sectioned tubular epoxy powder coated 2 mm thick sheet steel 60x30 mm structure. It has two open "C" frames which allow the legs to be inserted and fastened by means of screws with a 45° opening in respect to the top. The frames with legs are connected by means of a plug-in beam with screw locking. Slots are located along the entire lower part of the structure which allow for cabling. The elements of the structure differ from the desks due to the presence of a double connecting beam between the leg frames.

Composite meeting tables can be further extended by adding appropriate tops. All the composite tops, in addition to the beams of the structure have an 18 mm thick wooden conglomerate box-shaped leg coated in high resistant melamine with an inspectable compartment for cabling continuity. *Cable duct holes, flaps and all electrification elements may be applied (where possible) on all furnishings, see the "accessories".*

Benches

Tops made of:

- Wooden conglomerate class E1 formaldehyde release in 18 e 25 mm thickness coated with high resistant melamine paper. Perimeter edging in 2 mm thick ABS with rounded corners with a 2 mm radius. Refer to our chart for specified colours. Fastening to the structure by means of metal inserts.
- Rectangular sectioned tubular epoxy powder coated 2 mm thick sheet steel 60x30 mm structure. It has two open "C" frames which allow the legs to be inserted and fastened by means of screws with a 45° opening in respect to the top. The frames with legs are connected by means of a plug-in beam with screw locking. Slots are located along the entire lower part of the structure which allow for cabling. The elements of the structure have a double connecting beam between the leg frames. The benches can be further lengthened by adding appropriate tops. All the composite tops, in addition to the beams of the structure have an 18 mm thick wooden conglomerate box-shaped leg coated in high resistant melamine with an inspectable compartment for cabling continuity.

The double worktop is characterized by the central presence of a removable cover for cabling both from slots covered by a brush and from a top access that can be opened as a door using concealed hinges.

The following can be inserted as options for benches:

- Frontal and lateral 18 mm thick melamine panel
- Frontal and lateral 18 mm thick acoustic panel

Cable duct holes, flaps and all electrification elements may be applied (where possible) on all furnishings, see the "accessories".

Canalizzazione

Il sistema VERTEX presenta una canalizzazione estensibile applicabile su tutte le scrivanie, tavoli riunione e benches.

È composta da elementi tra di loro assemblabili realizzati in lamiera d'acciaio spessore 1 mm verniciati a polveri epossidiche colore RAL9006. Gli elementi presentano varie aperture che permettono il passaggio cavi in tutte le direzioni rispettandone la continuità. Il sistema è di libera installazione.

Cassettiera e mobile di servizio

Struttura costituita da base, cappello, fianchi e retro realizzata in conglomerato ligneo, classe E1 di rilascio formaldeide, spessore 18 mm e rivestito con carta melaminica ad alta resistenza. Bordi perimetrale in ABS sp. 0,4 mm.

Frontali in melaminico sp. 18 mm bordati in ABS sp. 1mm.

Il top può essere in:

- melaminico sp. 18 con bordo perimetrale in ABS sp. 1mm
- HPL sp. 10mm

Cassetti ammortizzati con vaschetta porta cancelleria. Interno cassetto realizzato in conglomerato ligneo ricoperto in PVC grigio e fondo in MDF sp. 3mm. Sistema di scorrimento su guide metalliche a rullo con cuscinetti in nylon, compresi di serratura a chiusura centralizzata fornita di doppia chiave numerata e pieghevole anti-infortunistica. Ruote piroettanti con freno in nylon. Maniglia in zamak con passo 128mm.

Ducting

The VERTEX system features extensible ducting which can be applied to all desks, meeting tables and benches.

It is made up of elements that can be assembled together made of 1 mm thick epoxy powder coated sheet steel in RAL9006. The elements have various openings which allow for cabling in all directions while respecting their continuity. The system is easy free to install.

Chest of drawers and service mobile

The structure consists of a base, top and sides made of wooden conglomerate class E1 formaldehyde release in 18 mm thickness coated with high resistant melamine paper. Perimeter edging in 0,4 mm ABS.

18 mm thick melamine fronts with 1 mm ABS perimeter edging.

The top can be made of:

- 18 mm thick melamine with 1 mm ABS perimeter edging
- 10 mm thick HPL

Softened drawers with stationery tray. The inside of the melamine drawers are coated with a grey PVC finish and 3 mm thick mdf bottom.

Sliding system on metal roller guides with nylon bearings, including centralized lock with double numbered anti-accident folding key. Nylon swivel wheels with brake. Zamak handle with 128 mm interaxle.

Mobili serventi

Proposto sia nella versione monoblocco che composto da più elementi a giorno, con ante e con cassettiera. Le strutture sono realizzate in conglomerato ligneo, classe E1 di rilascio formaldeide, spessore 18 mm e rivestito con carta melaminica ad alta resistenza. Bordi perimetrale in ABS sp. 0,4 mm.

Frontali ed ante in melaminico sp. 18 mm bordati in ABS sp. 1mm.

Il top in melaminico sp. 18 con bordo perimetrale in ABS sp. 1mm

Cassetti ammortizzati con vaschetta porta cancelleria. Interno cassetto è realizzato in conglomerato ligneo ricoperto in PVC grigio e fondo in MDF sp. 3mm. Sistema di scorrimento su guide metalliche a rullo con cuscinetti in nylon, compresi di serratura a chiusura centralizzata fornita di doppia chiave numerata e pieghevole anti-infortunistica. Maniglia in zamak con passo 128mm.

I piedi ricalcano le caratteristiche tecniche delle gambe scrivania.

Mobili contenitori

Struttura realizzata in conglomerato ligneo, classe E1 di rilascio formaldeide, rivestita con carta melaminica ad alta resistenza.

Base, cappello e fianchi spessore 18 mm e bordi perimetrale in ABS sp. 0,4 mm.

Retro spessore 10 mm.

Ripiani spessore 25 mm e bordi perimetrale in ABS sp. 0,4 mm.

Top, base e fianchi di finitura possono essere in:

- melaminico sp. 18 mm con bordo perimetrale in ABS sp. 1mm
- HPL sp. 10 mm con scontornatura a 45° e smussatura raggio 2 mm

Le ante, dotate di cerniere/basette in metallo a triplice regolazione, possono essere in:

- melaminico sp. 18 con bordo perimetrale in ABS sp. 1mm
- HPL sp. 4 mm su telaio perimetrali in alluminio spessore 18 mm
- Vetro sp. 4 mm su telaio perimetrale in alluminio spessore 18 mm

Tutti gli elementi si assemblano con ferramenta in metallo e spine in legno.

Serratura fornita di doppia chiave numerata e pieghevole anti-infortunistica.

Maniglia in zamak con passo 128 mm.

I piedi ricalcano le caratteristiche tecniche delle gambe scrivania.

Mobili consolle

Versione monoblocco con parti a giorno, ante battenti o scorrevoli e con cassetti. Le strutture sono realizzate in conglomerato ligneo, classe E1 di rilascio formaldeide, spessore 18 mm e rivestito con carta melaminica ad alta resistenza. Bordi perimetrale in ABS sp. 0,4 mm.

Frontali ed ante in melaminico sp. 18 mm bordati in ABS sp. 1mm.

Il top in melaminico sp. 18 con bordo perimetrale in ABS sp. 1mm

Sistema scorrevole su binari in alluminio e cuscinetti in nylon.

I piedi ricalcano le caratteristiche tecniche delle gambe scrivania.

Mobili boiserie

Struttura realizzata in conglomerato ligneo, classe E1 di rilascio formaldeide, rivestita con carta melaminica ad alta resistenza.

Pannello retro spessore 18 mm e bordi perimetrale in ABS sp. 1 mm.

Ripiani spessore 25 mm e bordi perimetrale in ABS sp. 1 mm.

Attaccaglie per fissaggio a muro in metallo.

Service furniture unit

Proposed both in a monobloc version and composed of several open elements, with doors and chest of drawers. The structure consists of wooden conglomerate class E1 formaldehyde release in 18 mm thickness coated with high resistant melamine paper. Perimeter edging in 0,4 mm ABS.

Fronts and doors in 18 mm thick melamine with 1 mm ABS edging.

Top in 18 mm thick melamine with 1 mm ABS edging.

Drawers amortized with stationery tray. The inside of the melamine drawers are coated with a grey PVC finish and 3 mm thick mdf bottom. Sliding system on metal roller guides with nylon bearings, including centralized lock with double numbered anti-accident folding key. Grey nylon swivel castors. Zamak handle with 128 mm interaxle.

The feet follow the technical characteristics of the desk legs.

Storage furniture

The structure consists of wooden conglomerate class E1 formaldehyde release in 18 mm thickness coated with high resistant melamine paper.

18 mm thick melamine base, top and sides with 0,4 ABS perimeter edging.

10 mm thick melamine back.

25 mm thick melamine shelves with 0,4 ABS perimeter edging.

The top, base e sides finishes can be in:

- 18 mm thick melamine with 1 mm ABS edging
- HPL 10 mm thickness with perimeter contouring at 45° and rounded corners with a 2 mm radius.

The doors are equipped with triple-adjustable metal hinges/bases which can be in:

- 18 mm thick melamine with 1 mm ABS edging
- 4 mm thick HPL on 18 mm thick aluminum perimeter frame
- 4 mm thick glass on 18 mm thick aluminum perimeter frame

All elements are assembled with metal hardware and wooden pins.

Double numbered anti-accident folding key.

Zamak handle with 128 mm interaxle.

The feet follow the technical characteristics of the desk legs.

Console furniture

The monobloc version is with open parts, hinged or sliding doors and drawers.

The structures consist of wooden conglomerate class E1 formaldehyde release in 18 mm thickness coated with high resistant melamine paper. Perimeter edging in 0,4 mm ABS.

18 mm thick melamine fronts and doors with 1 mm ABS perimeter edging.

18 mm thick melamine top with 1 mm ABS perimeter edging.

Sliding system on aluminum guides with nylon bearings.

The feet follow the technical characteristics of the desk legs.

Boiserie furniture

The structures consist of wooden conglomerate class E1 formaldehyde release in 18 mm thickness coated with high resistant melamine paper. Back panel in 18 mm melamine with 1 mm ABS perimeter edging.

25 mm thick melamine shelves with 1 mm ABS perimeter edging.

Wall fastening by means of metal supports.
