

CUETY MANUAL

Figure 1.4: Download page

The Cuety and Cuety Remote software is also available on desktop operating systems Windows, macOS and Ubuntu Linux. These releases can be downloaded from <http://www.visualproductions.nl/downloads/> (figure 1.4). Please bear in mind that the Cuety app is designed for a tablet; the portrait view requires a screen with a minimum of 1080 pixels in height.

1.6 What's in the box?

The LPU packaging contains the following items (see figure 1.5):

- LPU
- Ethernet cable
- Power supply
- 4x international plug
- Info card

1.7 Versions

At the time of writing this manual the Cuety App was at version 1.14, the Cuety Remote App was at version 1.09 and the LPU firmware at version 1.25.

1.8 Further Help

We have prepared you several instruction videos on our YouTube channel (figure 1.6) at <http://youtube.com/c/visualproductionsbvhaarlem>. These tutorials address network-setup, programming cues, importing personality files, upgrading firmware, etc.
